COMMANDER'S CORNER

Col. Kevin N. Harbison, NHW Commander

This past quarter saw New Hampshire Wing active in a great many areas of our mission. New Hampshire continues to work hard and make sure that our operations are done professionally and safely. We have been working to add several new squadrons up in the north country, flying fire patrols, orientation rides and many other activities.

We had two significant events over the last quarter. Very probably the single largest one was the USAF Operations Evaluation. Some members of the wing were working this evaluation all week long between 25 April and 1 May. Others were here for one or both of the two operational days. While the evaluation was challenging, we were still able to safely and successfully pass. A big thank you goes out to our mission base staff headed up by Scott Davis on day one and Bruce Determann on day 2. Their leadership was instrumental in our wing earning a passing grade.

The next event was our weekend SAREX in Whitefield. This was put together by Scott and went off extremely well. Thank you to Don Davidson, Bill Moran, Sandy Riis and Grayson Grantham for keeping everything on track. We had every aircraft flying and ground operations going. The ground and aircrews were able to conduct communications training to aid in improving that aspect of our operation. All in all, a great weekend and I look forward to the next one in October. We were able to host a rocketry competition at Center Strafford over the Memorial Day weekend. Thank you Nic Goupil for making that happen. Great job to all who came. We have a new Spaatz Cadet in our wing. Please take time to congratulate Cadet Alex Rose on his accomplishment. This is a significant event and very few cadets ever get the chance to even attempt the test. We will hold a promotion ceremony in the near future.

The CAP Inspector General College is a requirement for appointed Inspectors General to attend and the last training requirement towards attaining a Master Rating in the Inspector General Specialty Track. It is currently held every two years; this year in Peach Tree City, Georgia from 13-17 June. The American Council on Education through sponsorship of AF-Air University has accredited the CAP Inspector General College so it was an intense course packed into only 5 days. There were 50 students in the class, including the CAP National Vice Commander, the Rocky Mt. Region Commander and several former Wing Commanders.

Commanders Corner continued

I said this in the last newsletter, and it warrants stating again so I left it in. Through all these activities we continue to move closer to the ACC/1st AF merger. Some of us have already experienced the challenges that this move presents. There is a lot of good coming out of this merger, including significant recognition and increased funding by the Air Force. However, we need to get used to doing things the Air Force way. It is different in many respects to how we used to operate. In fact, the phrase "that is not how we have always done it" needs to be removed as an argument for not doing something correctly. These changes are only bad, if you look at them with negative eyes. Look to the positive, view them as a challenge to rise up to and meet, then rise up and meet them head on. Most importantly, if something does not make sense, ask questions. Keep asking questions until it makes sense.

In closing. New Hampshire Wing continues to excel in so many areas because of the efforts of our membership. It takes a great deal of work and effort on the part of the members of wing staff and squadrons to make all these great things happen. There are 560 members in New Hampshire Wing. I ask you to look at what you're doing for the wing/squadron to support our missions. Some people are quite busy and can only give a little, others have more time to give. Please consider jumping in on wing/squadron staff and helping out. Many of our sections are one person deep and this creates a single point of failure. It also creates staff burn out which leads to things not happening anymore. If you find yourself asking "why don't we do that anymore?" Most likely the staff member who did it became burned out and left.
